Computation:

For each day during a payment period that school will not be in session, subtract the part day rate from the total due then add the full day rate.

EXAMPLE:

**School starts on Wednesday of the first week of payment.

**Total payment period will be 8 part days and 2 full days.

**Cat 1 payment for After Only is \$48.

**\$48-\$4.80(for Monday)-\$4.80(for Tuesday)+\$10.60(full day Monday)+\$10.60(full day Tuesday)

**48-4.8-4.8+10.6+10.6=59.60

**Payment for this period is \$59.60 instead of \$48

If customer doesn't use us for full days, do not charge them but do deduct part days from what they did not use.
